

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

INTRODUCTORY

This is the thirty-first issue of the Sacramento Directory. The publishers have spared no pains nor expense to make this Directory superior to any previous issue, and we desire to thank all who have contributed to its success, either by generous patronage or co-operation in furnishing information to our enumerators. The information is up-to-date and has been obtained by men carefully trained in this work.

POPULATION

The Federal Census in 1920 gave Sacramento a population of 65,857, but in addition to the territory taken in by the census enumerators, the Directory has taken in North Sacramento, Broderick and considerable territory beyond the city limits on the south. Consequently the Directory estimate of population is in excess of the Federal Census. The present volume contains by actual count 85,074 names, exclusive of married women and children, single women without occupation, and also Orientals. Using the multiple of $2\frac{1}{2}$, which is in general use by directory publishers, this gives an estimated population for Greater Sacramento of 87,685.

Respectfully,

SACRAMENTO DIRECTORY CO.

Feb. 15, 1921.

Section 28, Copyright Law, in Force July 1, 1909.

"That any person who willfully and for profit shall infringe any copyright secured by this Act, or who shall knowingly and willfully aid or abet such infringement, shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be punished by imprisonment for not exceeding one year, or by a fine of not less than one hundred dollars, nor more than one thousand dollars, or both in the discretion of the court."

Some day when you want to get down to bed-rock on this dress-up thought, open my front door and register curiosity. I'll tell you what I know about clothes and their relation to you.

I'll tell you what kind of a suit you ought to have, how long it will last, when you ought to have another one to make them both look good, how much you ought to spend a year and why it will increase your business ability.

We'll get at the thing in a sensible, man to man fashion, and when we get through it will have been a profitable conversation for both of us. There is no mystery about *Straub Clothes*. The whole subject is expressed in the idea: Advertising the individual.

This is the season of the year to make up your mind on how you intend to dress. Let me worry about it.

Straub
TAILOR

919 K Street

Sacramento

Men of taste and discrimination wear STRAUB TAILORED CLOTHES.

Men who appreciate REAL economy in clothes are my oldest customers.

Twenty-five years in business in Sacramento making clothes for the most prominent and best dressed men is assurance of efficient service and skillful tailoring.

SACRAMENTO DIRECTORY CO'S

DIRECTORY OF HOUSEHOLDERS

1921

In the following list, the Streets, Avenues, etc., are arranged in alphabetical order without regard to location. The number of each building on the street is given in numerical order, and opposite the number is printed the name of the householder or householders. Houses that remain vacant at the close of the canvass have the word "Vacant" printed opposite the number. Houses with no numbers are not given. To find the occupation of householder, refer to the alphabetical list of names. For location of Streets, Avenues, etc., see page 7.

To phone a person whose name does not appear in the City Telephone Directory, look said person up in alphabetical section, ascertain the house number, refer to "Householders' Guide" for corresponding street and number and the householder or householders names appear, they being in phone book if there is a phone in the house. If no phone in the house neighbors on each side will be seen before and after name, also people opposite.
